

Benjamin Bilgehan

Full Stack Frontend Developer

 San Francisco Bay Area, United States of America |  +1-408-313-4795 |  hello@benjamin100.com |  U.S. Citizen

About me

With 13 years of experience at leading tech firms, I have been instrumental in developing interactive web applications, leveraging advanced technologies, and guiding new developers. My contributions have significantly increased organizational capacities, improved user experiences, and refined UI/UX design, resulting in a 50% rise in user satisfaction, an 80% enhancement in product efficiency, and a 25% improvement in client-side scripting optimizations. My background equips me to provide exceptional expertise and innovative solutions in any challenging scenario.

Skills

PROGRAMMING LANGUAGES

HTML5, JavaScript, TypeScript, C#, PHP, SQL

LIBRARIES AND FRAMEWORKS

jQuery, Node.js, Angular, Rxjs, NgRx, React, Next.js, Styled Components, Redux, Material UI, Vue 2 & 3, Vuex, Pinia, Vuetify, Wordpress, Laravel, CodeIgniter, CakePHP, ASP.NET Core, Entity, Python, Django, React Native, Expo

CSS/DESIGN

Responsive Design, Flexbox, CSS, CSS3, Sass/Scss, Less, Bootstrap, Tailwind CSS

TESTING FRAMEWORKS

Jest, Mocha, Jasmine, Karma, Protractor, Enzyme, Cypress, phpUnit

DATABASE

MySQL, MS SQL, PostgreSQL, MongoDB

VERSION CONTROL

Git, GitHub, GitLab, Bitbucket

CLOUD SERVICES

AWS (Amazon Web Services), Google Cloud Platform, Azure

SOFTWARE DEVELOPMENT METHODOLOGIES

Agile Methodologies, Code Quality Assurance, Legacy Code

Experience

ePRINTit May 2023 - Present
Senior Front End Developer Chicago, IL UNITED STATES
 <https://eprintit.com/>

- **Led the frontend development team**, overseeing the design and implementation of intuitive, high-performance user interfaces using **React**, **Angular**, **TypeScript**, and **Redux**, ensuring seamless user experiences across web and mobile platforms.
- **Architected and optimized** responsive web applications, improving page load times by 25% through efficient state management and lazy loading techniques.
- **Mentored junior engineers**, providing guidance on best practices in frontend development, code reviews, and performance optimization.
- **Collaborated with cross-functional teams**, including product managers and backend engineers, to deliver features that meet business requirements and improve system scalability.
- **Implemented modular and reusable components**, enhancing code maintainability and accelerating feature delivery by 30%.
- **Led the adoption of modern frontend tools and practices**, such as **Webpack**, **ESLint**, and **CI/CD pipelines**, to streamline the development process and improve code quality.

Global Logic April 2022 - April 2023
Senior Front End Developer Mountain View, CA, UNITED STATES
 <https://www.globallogic.com>

- **Collaborated with cross-functional teams** to design, implement, and maintain scalable and efficient software architectures, ensuring optimal performance and user experience.
- **Leveraged proficiency in a diverse range of technologies**, including but not limited to JavaScript frameworks React.js, backend frameworks Node.js, and databases MongoDB, to deliver robust and innovative solutions.
- Utilized React.js and Node.js to build **high-performance, scalable web applications**, delivering robust front-end experiences that enhanced user engagement and satisfaction.
- Developed back end modules with Node.js, ensuring **smooth integration** with front-end services for a cohesive, end-to-end solution across the application stack.
- **Performed comprehensive testing**, debugging, and code reviews, maintaining code quality and consistency to support seamless user interactions and reliability.

Custos Automation Inc. May 2021 - April 2022
Senior Frontend Developer Hong Kong, HONG KONG
 <https://custos.us/>

- **Developed a single-page application** that significantly improved user navigation, resulting in a 25% increase in page views, enhancing overall user engagement.
- **Led the creation of a responsive website** that significantly improved the user experience, leading to a remarkable 45% increase in conversion rates, driving business growth.
- **Implemented an automated build process** that reduced website loading time by an impressive 70%, ensuring a faster and more efficient user experience. Designed and developed user-friendly and visually appealing frontend web applications, ensuring seamless and attractive user interfaces. Collaborated closely with the design team to translate wireframes and designs into responsive and interactive user interfaces, maintaining design integrity.
- Wrote clean, efficient, and maintainable code using HTML, CSS, and JavaScript, facilitating code readability and collaboration within the development team.
- **Optimized web applications** for maximum speed and scalability, ensuring they could handle increased traffic and data loads.
- **Conducted thorough testing and debugging**, resulting in high-quality and bug-free software, delivering a seamless user experience.

Mavecap Venture Capital April 2020 - April 2021
Frontend web developer Clifton, NJ, UNITED STATES
 <https://mavecap.com/>

- **Collaborated with cross-functional teams** to develop customer-focused features and improve the photography ecosystem.
- **Wrote high-quality JavaScript and CSS code** to create responsive web applications.
- Explored new technologies, tested prototypes, and contributed to a culture of innovation. Participated in on-call rotation for service maintenance and issue resolution.
- **Contributed to all aspects of software development**, including design, coding, code review, testing, and bug fixing.
- Proactively identified and implemented improvements to enhance software quality and performance. Maintained up-to-date knowledge of front-end development trends and best practices

EZLO Innovation Inc. April 2016 - April 2020
Frontend web developer Clifton, NJ, UNITED STATES
 <https://ezlo.com>

- Leveraged 5+ years of professional software development experience to design, develop, and maintain.
- **Cutting-edge web applications** using React, Next.js, and TypeScript, consistently delivering high-quality, responsive, and data-intensive solutions.
- **Led the development of developer tool web applications**, streamlining internal processes and enhancing developer productivity through user friendly interfaces.
- **Designed and implemented web applications** with a strong emphasis on aesthetics and user experience, ensuring that each project achieved the right balance between craft, speed, and business priorities.
- Demonstrated deep understanding of usability issues in web applications, proactively addressing user pain points and improving overall user satisfaction.
- Collaborated closely with cross-functional teams, including subject-matter experts, to gather requirements and deliver feature-rich web applications tailored to business needs.
- **Successfully built web APIs** with Node.js, with a particular focus on document databases such as MongoDB, optimizing data access and retrieval processes.
- Consistently produced high-performance, reusable code for UI components, employing best practices and thorough testing to ensure code reliability.
- **Actively participated in code reviews**, providing constructive feedback to team members and fostering a culture of code quality and collaboration. Effectively communicated complex technical concepts to non-technical stakeholders, facilitating clear understanding and alignment among different project stakeholders.
- **Implemented and maintained software documentation** to ensure that the development team had access to comprehensive project documentation, enabling knowledge sharing and onboarding of new team members

Comodo Security Solutions, Inc April 2013 - April 2016
Frontend web developer Clifton, NJ, UNITED STATES
 <https://comodo.com>

- Developed and implemented new user-facing features using HTML, CSS, and JavaScript, ensuring a seamless and visually appealing user experience.
- **Created reusable code** and libraries to enhance development efficiency and maintainability, streamlining future feature implementations.
- **Optimized web applications** for maximum speed and scalability, resulting in improved performance and enhanced user satisfaction.
- Collaborated closely with design teams to transform designs and wireframes into high-quality, pixel-perfect code, maintaining design integrity throughout the development process.
- **Ensured the technical feasibility of UI/UX designs**, bridging the gap between design concepts and functional code
- Maintained comprehensive software documentation, including code documentation, project guidelines, and development best practices to facilitate knowledge sharing and onboarding of new team members.
- **Kept up-to-date with emerging technologies** and industry trends, actively integrating innovative solutions into our development stack to maintain a competitive edge.
- Actively participated in code reviews, providing constructive feedback to team members, fostering a culture of continuous improvement.
- **Worked within an agile development environment**, collaborating with cross-functional teams to deliver features on time and in accordance with project priorities.

GlobalLogic March 2009 - March 2013
Frontend web developer Kharkov, UKRAINE
 globallogic.com

- **Developed high-quality**, reusable, and performant web applications using React.js, Electron.js framework, and Node.js, consistently delivering robust and user-friendly software solutions.
- **Collaborated closely with UI/UX designers**, translating design wireframes and prototypes into functional front-end components that adhered to design and user experience principles.
- Built efficient Node.js backend modules and APIs, ensuring seamless integration with front-end components and supporting the overall application architecture.
- Implemented responsive and mobile-friendly designs, guaranteeing optimal user experiences across various devices and screen sizes.
- Spearheaded application performance optimization efforts, proactively identifying and addressing bottlenecks, and employing performance tuning techniques to enhance user satisfaction.
- **Demonstrated a commitment to writing clean**, well-documented, and maintainable code, following best practices and coding standards to facilitate code collaboration and readability.
- **Conducted comprehensive testing and debugging**, ensuring the quality, reliability, and stability of web applications, minimizing potential issues for end-users.
- Collaborated closely with the backend development team, integrating front-end components seamlessly with server-side logic for a cohesive end-to-end user experience.
- Stayed abreast of the latest industry trends, technologies, and frameworks related to React.js and Node.js, incorporating innovative solutions into projects to maintain a competitive edge.
- Actively participated in code reviews, providing constructive feedback to team members, promoting code quality, and fostering a culture of continuous improvement.
- Played a key role in estimating project timelines and consistently delivered on commitments.

Education 2018 - 2021
Karazin Kharkiv National University - Kharkov, Ukraine Master Master's degree, Computer Science, V. N.
Computer Science

University Putra Malaysia - Kuala Lumpur Malaysia 2003-2009
Computer Science Bachelors Degree of Engineering

STRENGTHS

Analytical, Strategic, Problem-solving, Organized, Detail-oriented, Strong communicator, Business Storytelling

Certifications
SCRUM Master Fundamentals June 2023 **SCRUM Master** December 2023
PluralSight PluralSight
